Subject Index

Volume 18 2004

(Abstract publications not included)

Addiction
– evidence based guidelines for the pharmacological management of 293
α_2–adrenoceptor
– mediated behaviour modulation of HPA axis activity in stressed and control rats 47
– role of adrenoceptors on venlafaxine-induced elevation of extracellular monoamines in rat brain 395
Aggression
– response to pindolol in Alzheimer's disease 215
Akathisia
– no association with suicidality in treatment-resistant schizophrenia 384
Alcohol
– and mental health: focus on dementia and stroke 449
– detoxification improved by mirtazepine 88
– pictorial Stroop reveals attentional bias in heavier compared to lighter social drinkers 527
Alzheimer's disease
– antioxidant properties of wine 449
– noradrenergic activity is associated with response to pindolol 215
Amitriptyline
– ability to cross blood brain barrier reduced by P-glycoprotein in mice 66
Amphetamine
– decreases the expression and acquisition of appetitive conditioning but increases acquisition of anticipatory responding over a trace interval 516
– performance and physiological effects of *d*-amphetamine and methylphenidate in stimulant abusing humans 534
Animal model
– antidepressant-like effect of tramadol in mice 404
Antipsychotic agents
– effects on auditory and latent inhibition, prepulse inhibition, executive function and eye movements in healthy volunteers 156
– effects on prepulse inhibition of the acoustic startle response in man 173
– mechanism of action of aripiprazole predicts efficacy and side-effect profile 375
– prolongation of QTc and magnesium homeostasis 438
– receptor mechanisms in the treatment of schizophrenia 340
– tardive dyskinesia and D_2 receptor affinity 124
Anxiety
– chronic cannabinoid exposure produces memory impairment and anxiety in adolescent but not adult rats 502
– self-reported psychopathology in polydrug users 75
Apathy
– bupropion management of 133
Aripiprazole
– mechanism of action of 375
Attention
– monoamine depletion impairs in healthy females 1
Autoradiography
– repeated administration with Δ^9-tetrahydrocannabinol regulates μ-opioid receptor density in rat brain 54

Bipolar disorder
– changes in pharmacological treatment over time 441
Bromocriptine
– effects on human sensory gating, P50 suppression 388
Bulimia
– pilot study of reboxetine 422
Bupropion
– in the management of apathy 133

Cannabinoids
– chronic exposure produces memory impairment and anxiety in adolescent but not adult rats 502
– and MDMA: complexities of neuropsychobiological effects 572
– spontaneous withdrawal produces a differential time-related responsiveness in CB_1 gene expression in mouse brain 59
Carbamazepine
– combination therapy with venlafaxine in depressed patients 559
Carbon dioxide challenge
– effects of tianeptine and paroxetine on 35% CO_2 induced panic in panic disorder 553
– Challenge tests 7
Cholecystokinin-4 (CCK-4)
– panic attacks and serotonin 194
Clozapine
– cerebral D_2 and 5-HT_2 receptor occupancy in schizophrenic patients treated with olanzapine or clozapine 355
– effects on brain function in treatment-resistant schizophrenia 428
– heat stroke during treatment in schizophrenia 121
– PET study of the 5-HT_{1A} receptor in schizophrenia and during clozapine treatment 346
Cocaine
– new neurophysiological indices of craving: evoked brain potentials and cue modulated startle 544

Cognitive function
– nicotinic receptor mechanisms in normal state and neuropsychiatric disorders 457
– relationship of sex hormones and cortisol with cognitive functioning in schizophrenia 366
Compartment syndrome
– with coadministration of risperidone and simvastatin 432
Conditioning
– amphetamine decreases the expression and acquisition of appetitive conditioning but increases acquisition of anticipatory responding over a trace interval 516
Conflict of Interest 447
Corticosterone
– differences in circulation alter receptor-mediated regulation of 5-HT neuronal activity 475
Cortisol
– relationship with sex hormones and cognitive functioning in schizophrenia 366
Craving
– for cigarettes, effect of nicotine gum 83
– new neurophysiological indices of cocaine craving: evoked brain potentials and cue modulated startle 544
Cytochromes
– CYP2D6 and CYP2C9: influence of genotypes, risperidone concentration and QTc interval 189
– drug interactions with St John's wort 262

D_2 receptor
– antipsychotics and tardive dyskinesia 124
– receptor mechanisms in the treatment of schizophrenia 340
Dementia
– alcohol, wine and mental health 449
Depression
– folate 251
– self-reported psychopathology in polydrug users 75
Diabetes
– and olanzapine treatment 128
– keto-acidotic coma after olanzapine 435
Donepezil
– effects of on neuropsychological testing in volunteers 102
Dopamine
– topographical effects on orofacial movements in mice 484
Dothiepin
– cognitive and psychomotor effects in elderly patients 205
Drug interactions
– with St John's Wort 262

Ecstasy – see MDMA
Elderly patients
– cognitive and psychomotor effects of venlafaxine and dothiepin 205
Electromyography
– with transcranial magnetic stimulation; applications for neuropsychopharmacology 257
Eye blinking
– not a useful marker of central dopaminergic activity 109
Eye movements
– effects on antipsychotic drugs in healthy volunteers 156
– effects of dopaminergic agents 109
– PK/PD assessment of rilmenidine in hypertensive patients 221
Executive function
– effects on antipsychotic drugs in healthy volunteers 156

Fentanyl
– oral transmucosal abuse of transdermal fentanyl 277
Folate
– for depressive disorders; review and meta-analysis 251
– MTHFR C677T polymorphism is associated with depressive episodes 567

Gender
– effects of ketamine in healthy volunteers 337
Gene expression
– spontaneous cannabinoid withdrawal produces a differential time-related responsiveness in CB_1 gene expression in mouse brain 59
Glucocorticoid receptor
– effect of chronic lithium treatment on mRNA in rat brain 496
Good Clinical Practice 7
Guidelines
– Evidence-based guidelines for the pharmacological management of substance misuse, addiction and comorbidity: recommendations from the British Association for Psychopharmacology 293

Heat stroke
– during clozapine treatment in schizophrenia 121
5-hydroxytryptamine
– differences in circulating corticosterone alter receptor-mediated regulation of neuronal activity 475
– effect of chronic lithium treatment on 5-HT_{1A} receptor mRNA in rat brain 496
5-hydroxytryptophan
– effect of on CCK-4 induced panic in volunteers 194
Hypothalamic-pituitary-adrenal (HPA) axis
– activation by central noradrenaline in control and acute restraint stressed rats 47

Imidazoline$_2$ (I_2) receptor
– mediated behaviour modulation of HPA axis activity in stressed and control rats 47
Interferon-alpha (IFN-α)
– psychopharmacological treatment of depression, anxiety, irritability and insomnia in patients receiving 41

Ketamine
– gender differences in healthy volunteers 337

Latent inhibition (LI)
– effects of antipsychotic drugs on auditory and visual LI in volunteers 156
L-dopa
– effects on human sensory gating, P50 suppression 388
Lithium
– effect of chronic treatment on glucocorticoid and 5-HT_{1A} receptor mRNA in rat brain 496

Magnesium
– antipsychotics and QTc prolongation 438
Mania
– development of manic symptoms after quetiapine 281
mCPP 7
MDMA
– and cannabis: complexities of neuropsychobiological effects 572
– effect of binge dosing in rats 412

Memory
- chronic cannabinoid exposure produces memory impairment and anxiety in adolescent but not adult rats 502
- monoamine depletion and memory in healthy women 32

Methylphenidate
- performance and physiological effects of *d*-amphetamine and methylphenidate in stimulant abusing humans 534

Microdialysis
- role of adrenoceptors on venlafaxine-induced elevation of extracellular monoamines in rat brain 395

Mirtazepine
- improves alcohol detoxification 88

Monoamine depletion studies 21, 32

Mood induction
- reproducibility of negative mood 94

MTHFR
- C677T polymorphism is associated with depressive episodes 567

μ-opioid
- regulated by repeated administration with Δ^9-tetrahydrocannabinol in rat brain 54

Neuroleptic malignant syndrome (NMS)
- misdiagnosed as heat stroke 121

Neuropsychological testing
- before and after donepezil in volunteers 102

Nicotine
- influence of gum on cravings for cigarettes 83

Nicotinic receptor
- cognition in normal state and neuropsychiatric disorders 457

Noradrenaline
- association of response to pindolol in aggressive Alzheimer's disease patients 215

Olanzapine
- cerebral D_2 and 5-HT_2 receptor occupancy in schizophrenic patients treated with olanzapine or clozapine 355
- diabetic keto-acidotic coma following treatment initiation 435
- effects on brain function in treatment-resistant schizophrenia 428
- effects on reproductive function and weight gain in female rats 149
- occurrence of diabetes mellitus 128

Orofacial movements
- topographical effects of D_1-like dopamine receptor agonists in mice and regulation via oppositional versus synergistic D_1-like: D_2-like interactions 484

Paediatric psychopharmacology
- a prospective study of incidences of prescribing 115

Panic attacks
- effects of tianpetine and paroxetine on 35% CO_2 induced panic 553
- effects of vigabatrin and tiagabine 440
- induced by CCK-4 194

Parkinsonism
- no association with suicidality in treatment-resistant schizophrenia 384

Paroxetine
- effects on 35% CO_2 provoked panic in panic disorder 553

P-glycoprotein
- factor in uptake of dextromethorphan but not melperone into mouse brain 509
- pharmacokinetic interactions of drugs with St John's wort 262
- reduces ability of amitriptyline metabolites to cross blood–brain barrier in mice 66

Pharmacokinetic/pharmacodynamic (PK/PD) measures
- assessment of CNS tolerance of rilmenidine in hypertensive patients 221
- combination therapy with venlafaxine and carbamazepine 559
- overlap in substrate specificity between P-glycoprotein and CYP2D6 in mouse brain 509

Pindolol
- in aggressive Alzheimer's disease 215

Plagiarism 291

Positron emission tomography (PET)
- cerebral D_2 and 5-HT_2 receptor occupancy in schizophrenic patients treated with olanzapine or clozapine 355
- effects of clozapine and olanzapine in treatment-resistant schizophrenia 428
- study of the 5-HT_{1A} receptor in schizophrenia and during clozapine treatment 346

Prepulse inhibition (PI)
- effects on antipsychotic drugs in healthy volunteers 156
- effects of quetiapine and haloperidol on PI of the acoustic startle response in man 173
- influence of schizotypy traits in young healthy controls 181

Prescribing practice
- a prospective study of incidences of prescribing by child and adolescent psychiatrists 115

Psychiatric symptoms
- in patients treated with IFN-α 41
- nicotinic receptor in normal state and neuropsychiatric disorders 457

Psychomotor performance
- effects of venlafaxine and dothiepin in elderly depressed patients 205

Quetiapine
- mood altering properties 281

QTc interval
- drug metabolising enzymes CYP2D6 and CYP2C9 and risperidone plasma concentrations 189
- magnesium homeostasis and antipsychotic-induced prolongation 438

Reboxetine
- effects of on sleep and nocturnal cardiac autonomic activity in dysthymic patients 416
- pilot study in bulimia nervosa 422

Reproductive function
- effects of olanzapine on in female rats 149

Rhabdomyolysis
- with coadministration of risperidone and simvastatin 432

Rilmenidine
- PK/PD assessment in hypertensive patients 221

Risperidone
- rhabdomyolysis and compartment syndrome with coadministration of simvastatin 432

Schizophrenia
- no association with akathisia or Parkinsonism and suicidality in treatment-resistance 384

– PET study of the 5-HT_{1A} receptor in schizophrenia and during clozapine treatment 346
– receptor mechanisms and treatments 340
– relationship of sex hormones and cortisol with cognitive functioning in 366
Schizotypy
– influence of traits on prepulse inhibition 181
Sensory gating
– effects of L-dopa and bromocriptine 388
Sexual dysfunction
– effects of olanzapine on reproductive function and weight gain in female rats 149
Simvastatin
– rhabdomyolysis and compartment syndrome with coadministration of risperidone 432
Sleep
– effects of reboxetine on sleep and nocturnal cardiac autonomic activity in dysthymic patients 416
Smoking
– influence of nicotine gum on cravings for cigarettes 83
SSRIs
– issues around suicidality and dependence 285
St John's wort
– pharmacokinetic interactions with other drugs 262
Stress
– controllable/uncontrollable paradigm in mood induction 94
– noradrenergic regulation of HPA activation in rats 47
– relationship of sex hormones and cortisol with cognitive functioning in schizophrenia 366
Stroke
– alcohol, wine and mental health 449
Stroop
– pictorial paradigm reveals an alcohol attentional bias in heavier compared to lighter social drinkers 527
Substance misuse
– evidence based guidelines for the pharmacological management of 293
– factors associated with recreational drug use 238
– neurophysiological indices of cocaine craving 544
– oral transmucosal abuse of transdermal fentanyl 277
– patterns from a South Wales self-report survey 228
– performance and physiological effects of *d*-amphetamine and methylphenidate in stimulant abusing humans 534
– self-reported psychopathology in polydrug users 75
Suicide
– no association with akathisia or Parkinsonism in treatment-resistant schizophrenia 384

Tardive dyskinesia
– antipsychotic agents and D_2 receptor affinity 124
Temperature
– effect of binge dosing of MDMA to rats in normal and high temperature 412
Δ^9-tetrahydrocannabinol
– repeated administration regulates μ-opioid receptor density in rat brain 54
Tiagabine
– antipanic properties 440
Tianeptine
– effects on 35% CO_2 provoked panic in panic disorder 553
Tramadol
– antidepressant-like effect in mice 404
Transcranial magnetic stimulation
– applications for neuropsychopharmacology 257

Venlafaxine
– cognitive and psychomotor effects in elderly patients 205
– combination therapy with carbamazepine in depression 559
– role of adrenoceptors on venlafaxine-induced elevation of extracellular monoamines in rat brain 395
– tolerability of high doses in depressed patients 200
Vigabatrin
– antipanic properties 440

Weight gain
– effects of olanzapine on weight gain in female rats 149
